

# USES OF AIR

Welcome Back!

Now that you know who I am, let me tell you how I am useful and important to you.

These are few air sports that are used for entertainment.

I help in  
breathing

I help dry clothes

I help in the working of  
these musical instruments

I am used to fill up the  
tyres and the balloons

I produce  
energy

I keep the  
body cool

**I salute the air for helping  
me breathe.**
