

# ANIMALS - OUR FRIENDS

- Animals are our friends.
- They need food, water, and shelter to live.
- Animals eat plants or the flesh of other animals.
- Some animals live in our home as pets. Ex :- Cats, Dogs, Fish.
- Some animals are reared on a farm for useful products like milk, egg, meat and wool.
- A Dog lives in a Kennel, Hen in a Coop, Cow in a Shed, Duck in a Pond and Bee in a Hive.
- If our farm or pet animal falls sick, we should take them to a veterinary doctor.
