

## UNDER WATER ANIMALS

"I will not pollute the home of the underwater animals."

About one million species of animals live in the ocean. They are called Aquatic animals.

Some of the smallest animals on the Earth can be found in the ocean. They are of different shape, size and colour.

Fishes, Whales, Dolphins, Walruses, Seals live in the ocean. Animals such as seahorses, clownfish, and sea turtles live on coral reefs.

The ocean can never freeze because there is so much salt in the water.
