

WILD ANIMALS

Wild animals live in the forest
They require **food, water, and**
habitat to live in.

We see them in the zoo.
On our visit to the zoo,
we should not feed the animals.
We should not litter the place.

Zebras are swift
runners.

The lioness does most of
the hunting in the dark.

Elephants cannot
jump.

Tigers are good swimmers.
They can swim in rivers
and streams.
