

# BIRDS

Birds have feathers, wings, and beaks. They build their own nest. They live in nests and lay eggs. Birds fly with the help of hollow bones, wings, and feathers. Many birds can also run, jump, swim, and dive. Birds communicate using sound. Ravens are great at mimicking human speech and sounds. Parrots can learn to say hundreds of words.

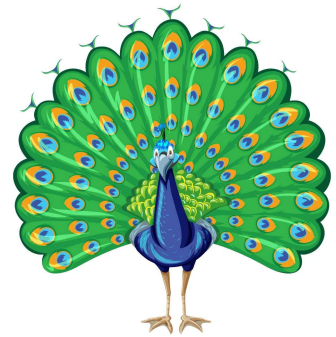

## **Sparrow - I LOVE YOUR CHIRP**

Sparrow is a very small bird. They are very active. Sparrows love to peck seeds with their tiny beak.

## **I Admire your Feathers - Peacock**

Peacock has a huge fan like colourful feathers. Peacock is the National Bird of India. It loves to dance in the rain.

## **Penguin - I Marvel your Intelligence**

Penguins can swim fast. They cannot fly. Their wings are too heavy and too short to fly.

## **I Applaud your Bravery - Eagle**

Eagles are large and powerful hunters. Eagles have excellent eyesight. Eagles are expert fliers.

## **Woodpecker - I Appreciate your Perseverance**

Woodpeckers have a long tongue. They have a unique flying pattern. They can peck up to 20 times per second. They like to make music.
